

**6401 Brodie Lane-What is your recommendation for how the properties in beige in the map above should or should not be incorporated into the Parks and Open Space Master Plan? What other alternatives should the City explore?**

Categorized answers: If a comment fell into two distinct categories it was placed in both categories.

Keep		Other		Sell
1	Nature/Gardens	Recreational	Leave As Is	Retail
2	Butterfly garden; wildlife habitat. Add bat houses to attract bats to eat insects.	pool or splashpad	Leave As is	Rainwater collection tanks for city use. Ecological restoration.
3	Create a distinctive park. Maybe a butterfly garden that can honor Anne Gault who was a Master gardener and helped found our community garden	Skateboard park	leave as is.....dont need to develop every green space	Before very careful before making it available for development to ensure it won't result in more trash, more intrusive and polluting noise and light, and more traffic, all of which will diminish the quality of life of residents in our beautiful and quiet city.
4	Unfamiliar with this lot but we always need more nature	Pool and Event gathering space	Not a good location for park. Leave it single family and maintain house property until we see what develops around it.	We have been leasing this property for pasture. Would like to continue to do so if we can come to an agreement with the city
5	Parkspace for the food service businesses that are going in the lot to the south. Will need parking overflow to not bother neighbors on Oakdale with people parking on their street!	swimming facility	Left as greenspace/buffer for Oakdale residents from development	Not sure. Seems very disconnected.
6	The house could be used as office for Nature oriented non-profits. Urban garden in the back?	ditto but if it is next to oakdale, keep as open recreational space and make it recreational	Do nothing at this time	need more info
7	Add flowering fruit trees and landscaping, picnic tables and ten or so parking spaces for residents (and a walkway to the adjacent restaurant development as an amenity).	Picnic park	Keep as is	No comment
8	Conservation greenspace with a possible passive detention pond in existing open area to relieve longtime localized flooding issues for nearby Oakdale citizens and enhance recharge here.	Pool or splash pad!	Maintain the natural condition of this place.	No comment
9	Trails	City gym	Leave as is. Turn into plain green space.	Not sure, maybe some trails
10	Conservation, wildlife and hiking	pool	Leave it as open space	NOBODY knows about this one outside of City Hall and Oakdale residents. Need the let the whole community know and provide access. Then we can determine what to use it for.
11	Conservation	Picnic	Do nothing	Not include
12	Wildlife habitat	Gathering area for picnics and playground	leave natural	Unsure
13	Create a pocket park		Leave green for now	Gosh I don't know
14	use as natural space with possible parking solution for trail access		Leave it as it is, just maintain it	
15	Allow usage as requested by owners		Do not change	
16	connect to the SV nature area		As is	
17	Add to open space or keep development at a minimum		Leave as is	
18	zone as conservation land		Nothing	
19	Leave us open space/green space. Consider adding community gardens, walking trails. Connect to the Sunset Valley Nature Area.		Leave as is/maintain	
20	Nature area			
21	Greenspace open space			
22	Looks like it's in the Sunset Nature Preserve			
23	Not sure what the limitations are for this property. I believe it was acquired via a "life estate" agreement. The city should honor any commitments made by the city.			
24	Incorporate into master			
25	Make accessible			
26	Incorporate into Greenspaces with trails and connectivity			
27	Conservation greenspace with a possible passive detention pond in existing open area to relieve longtime localized flooding issues for nearby Oakdale citizens and enhance recharge here.			
28	This must be reserved as undeveloped parkland or green space in keeping with the will of the donor. It is a matter of honor for the city.			
29	Preserve as green space. Do not sell--keep as open space/wildlife restoration.			
30	Add to open space			
31	Connect to trails			
32	Conservation area to protect our residents			
33	Greenbelt			
34	Zone for conservation
