F: 512-892-6108

City of Sunset Valley, Texas

AUG 1 2 2014

RECEIVED

City Council and Citizens,

As required by Section 102.005 of the Texas Local Government Code, the attached Budget for Fiscal Year 2014/2015 for the City of Sunset Valley is filed for consideration by the City Council.

I would like to acknowledge the work of the Budget, Finance and Administrative Committee in reviewing the budget requests and in assisting with the development of the budget. Additionally, I would like to thank residents who participated whether it is through committees, attending council meetings, reaching out to the elected officials or completing the recent city survey.

Every bit of participation provides valuable guidance to the elected officials. Thank you specifically to Rae Gene Greenough, City Secretary and Clay Collins, City Administrator for keeping me on track, correcting me when needed and providing me with the administrative assistance a Mayor needs to get this task done on time. Our City is incredibly lucky to have the current combination of resources and residents.

This budget represents my preferences based on participation and input up to this point from residents, staff and the Budget and Finance Committee. My hope is that Council will support my proposed budget as I believe it supports the goals of our city, is consistent with actions taken in recent years and the voiced desires of our residents in the survey.

Regardless of whether council can support my proposed budget, I encourage them to actively engage and discuss any items that they desire to strike or alter. This budget will be presented and discussed at City Council on August 19. A public hearing will occur on September 2nd. Council will adopt a final budget on September 16th. If needed, I have tentatively scheduled and additional work session on September 9th should council want or need it. Please provide your public input at these meetings.

The following table shows the proposed total expenditures by major operating fund:

| General | Street | Utility | Drainage | HOT | Green Tax | Underground | Tatal |
|-------------|--------|-------------|----------|------|-----------|--------------|-----------------------------|
| Fund | Fund | Fund | Fund | Fund | Fund | Utility Fund | |
| \$4,328,205 | | \$1,735,402 | | | | \$0 | Total \$9,464,727 |

Significant Budget Items

Revenue and Reserve Funding

The current budget projects an increase in Sales Tax Revenue following the methods established by the Long Range Planning Committee in 2012. This budget proposes a \$455,487 increase to the General Fund reserve in accordance with the revised policy adopted by the City Council last year. The reserve policy requires that the General Fund reserve be set at 100% of the budgeted revenue from the previous year, so as revenue has increased, the reserve requirement has increased as well.

Water Planning

The Public Works Committee requested \$65,000 to fund continued development of a Master Water Planning project. The Finance Committee's recommendation was not to fund this project. With the current extended drought and the uncertainty of future water supplies, it would be short sighted not to continue work in this area and I have included this project in the Mayor's Budget, to be funded from the General Fund. Additionally, Council has made this a priority issue based on State and regional conversations and residents ranked it as one of the absolute most important issues to the City.

The Utility Repair and Replacement Fund are committed funds for water and wastewater lines that are scheduled for replacement with annual contributions based on the estimated cost of replacement and the life of the line. However, out of the \$1,281,857 in the fund, there are no funds allocated to the "Water Plant" line item. The Mayor's budget has re-allocated funds to include a \$75,000 annual allocation for the replacement of the Water Plant.

Utility Rates

As a part of the continued discussion regarding Water Planning, the City Council funded a Cost of Service Study for Water, Wastewater, and Solid Waste Services that was completed earlier this year. This provided data for the Public Works and Finance Committees to make recommendations regarding changes to the current rate structure.

Maintaining low utility rates for our residents will continue to be a priority, but ensuring that our city utilities remain financially solvent in providing services to both our businesses and residents must also be a priority. In keeping with the recommendations from both the Public Works and Finance Committees, the budget includes the following provisions:

- A base rate for residential wastewater service.
- A base rate for residential solid waste and recycling services.
- A wastewater use charge for higher use categories (based on winter water consumption).
- Eliminating the different winter/summer rates and establishing water rates that do not change during the year.

The Finance committee recommended reducing the base residential water rate by \$5 and creating the new residential wastewater base rate of \$4 and a new residential solid waste and recycling base rate of \$1. The Mayor's budget does not reduce the base residential water.

The Finance Committee included a 4% increase in wholesale water and wastewater contract expenses from the City of Austin along with corresponding adjustments in rates for both residential and commercial customers (independent of the rate structure changes noted above). On August 7, 2014, we were notified that the City of Austin is proposing an 8.8% increase in the cost of wholesale water and a 3.2% increase in the cost of wholesale wastewater treatment to the City of Sunset Valley. This increases the revenue requirement for both services and residential and commercial rates are proposed to be increase accordingly, which is consistent with what the City has done in recent years.

Water Conservation Rebate Program

The Finance Committee recommended changes to the current policy of rebating the base water bill and use charges for any residential bill with under 3,000 gallons in water consumption. The recommendation was to charge for the base rate, but not the water used. I am recommending that we convert this to a true rebate program to support our conservation goals and encourage more residents to conserve in the coming years. This will also eliminate the confusion that it is part of the utility subsidy. Rather than providing an "all or nothing" reward for being below 3,000 gallons, I am proposing that we convert this to an annual rebate program based on total water consumption used over a twelve month period. Rebates would be provided as follows:

Less than 40,000 gallons of water use – eligible for a \$300 water conservation rebate 40,000 to 50,000 gallons of water use – eligible for a \$200 water conservation rebate 50,000 to 60,000 gallons of water use – eligible for a \$100 water conservation rebate

This would provide an incentive for larger households that may not be able to conserve enough to reach the current 3,000 "goal" but could still receive a benefit for their conservation efforts. This has the potential to significantly reduce water consumption through a positive incentive, which in turn also reduces the cost of our utility subsidy.

Projects

The Finance Committee recommended funding changes from the budget request for the Jones Road Right Turn Lane and Jones Road Pedestrian Trail Projects. Both projects are in the design stage and some construction funding was provided in the FY 13-14 budget. The cost estimate for both of these projects has increased and additional funding was requested from the FY 14-15 budget. The Finance Committee recommended additional funding for the Right Turn Lane Project, but not the Pedestrian Trail. At a recent meeting of the Public Works Committee, there were additional project discussions. The Mayor's Budget includes the funding recommendation from the Finance Committee; however, prior to any construction expenditures on the Pedestrian Trail, this project will be reevaluated by the City Council at the August 19, 2014 City Council meeting to determine if the project should continue or if these funds should be reallocated to other projects.

The Finance Committee recommended funding \$200,000 to the Reserve for new Police and Public Works facilities. The Mayor's budget increases this amount to \$300,000. When added to the existing amount in this reserve account, there will be \$493,788 available in the new facilities reserve. When the current City Hall was constructed, the City set aside approximately \$300,000 per year to accumulate the needed funding, so this is taking similar action to set aside funding for future construction for Police and Public Works facilities. This money does not have to be spent, but I would prefer that our City be prepared to fund it when ready to avoid loans or a delayed start to prospective construction.

Miscellaneous Funding

- The proposed budget funded \$10,000 for planning of the use of the Uplands Property. The Mayor's budget increases this to \$24,200. Again, this has been a priority project to Council and that sentiment was reiterated in the city survey. If anything, Council should consider increasing this funding more.
- The Sustainable Food Center requested \$2,025 for Farmer's Permit Reimbursement Program. The Finance Committee did not recommend funding for this program. I have included it in the Mayor's budget. These would be the only General Fund monies provided to support the Farmer's Market, all other funds provided to them come from HOT Funds.
- Funding in the amount of \$15,000 for future trail projects has been added in the Mayor's budget to continue implementation of the Trails Master Plan and where opportunities for partnerships may arise. Specifically, I would like to see increased pedestrian areas and beautification around the AISD bus barn and 4715 commercial property. I believe there are opportunities for our city to collaborate with these property owners as they are actively redeveloping to increase to pedestrian access from the stadium and Farmer's Market to the 4715 endeavor, which would be a win-win for AISD, the commercial and resident interests. I would encourage the elected officials to work with these property owners and ask them to contribute funds, easements and resources to the prospective improvements.

Future Discussion items

During the budget process, some items were highlighted and I would like to see these addressed by the City Council (with input from committees as appropriate) during the next year:

Rebates provided to residents

The Finance Committee requested information on all rebate programs as a part of their deliberation. Now that this has been compiled, I would like to see it reviewed and revised to make sure that we are promoting the right types of rebate programs for the broadest impact.

I want to see our City promote conservation and determine clear goals for the various rebate incentives. These should then be addressed and discussed by Council each year so

that there is a cognitive relation between the rebate programs and the actual conservation accomplishments of our residents. This is another area where our City is incredibly fortunate to have the resources to incentivize and reward residents for taking action to conserve. It is a very small portion of the City budget that has direct and measurable conservation value.

Landscaping

The City Council added additional landscaping maintenance to the budget during the past year and this is now reflected in next year's budget. A significant amount of this landscaping work is done via contract and it is an ever-growing City expense. I also anticipate that the scope of work will continue to increase. The City should continue to review these contract expenses and evaluate if it would be more cost effective to perform this maintenance with additional staff or creation of a separate division within Public Works.

Respectfully submitted this 12th day of August, 2014

Cardona

Rose Cardona

Mayor

City of Sunset Valley Utility Rates

UTILITY RATES EFFECTIVE October 1, 2013

Residential Water Non Seasonal (November thru June)

Monthly Base Fee \$ 13.40 0 - 14,999 gals. \$ 3.04 per 1,000 gallons 15,000 - 24,999 gals. \$ 3.80 per 1,000 gallons

25,000 gals. and over \$ 4.76 per 1,000 gallons

City of Sunset Valley, Texas Revenue Analysis FY 2014-2015

Revenue projections formulated in this report are based on historical information, current trends of retail sales, future, and the professional judgment and analysis of the Administration Department of the City of Sunset Valley.

GENERAL FUND

The City's General Operating Fund pays for the cost of running the day-to-day business of the City. Revenues received primarily from local sales taxes, also include fees and services, licenses and permits, and a variety of other revenues including interest income.

The General Operating Fund total projected revenue for FY 2014-2015 is \$4,713,930 with the majority of revenue received from Sales Tax generated from the 3 major shopping centers and other retailers located within the City.

| Total Revenue | \$4,723,930 | \$4,600,000 | \$123,930 | 2.69% |

The following discussion highlights each source of General Fund Revenue and any significant revenue issues that confront the City.

Court Revenue

\$50,000

Revenue collected by the Municipal Court is classified into three categories: Fine Income \$35,000, Court Income \$10,000 and Warrant Fees \$5,000. Revenues generated are primarily from traffic citations and based on how the citations are paid revenue categories could fluctuate. In FY 2012-2013, the City

contracted with an outside source to collect outstanding warrants which caused an initial increase in FY 13-14 but should level off in FY14-15.

Event Income

\$3,000

The Art Fest is an annual event sponsored by the Arts Commission and is funded by Hotel Occupancy Tax. Booth fees are collected from outside vendors. This revenue cannot be deposited into the Hotel Occupancy Tax Fund, because that fund is restricted. In FY 2012-2013, the City initiated a \$25.00 building use fee. These fees are included in this revenue line item. Based on history of the City Hall building use the proposed revenue for the building use is \$500.

Fire District Tax Collections

\$20,000

Fire District tax payments are a result of an Interlocal Agreement between Travis County Emergency Services District No. 3 and Sunset Valley. The City's contract with the Austin Fire Department to provide fire protection services within Sunset Valley's City limits includes a provision covering the area within Sunset Valley's Extraterritorial Jurisdiction (ETJ). This was because the Austin Fire Department was concerned that not providing coverage to the ETJ would create islands with little to no coverage while creating loss in Sunset Valley should a substantial fire occur. The City negotiated agreement with Travis County ESD No. 3 provides any taxes collected be remitted to Sunset Valley to help offset the City's cost for providing the service.

Interest Earnings

\$15.000

Historically interest income on funds deposited in TexPool had been a primary source of revenue generated by the City. Interest rates continue to stay at a low rate. The City continues to purchase some Certificates of Deposit to increase interest revenue.

Miscellaneous Revenue

\$4.400

Miscellaneous service fees and charges are revenue from various fees charged for copies and services provided by the City.

Mixed Beverage Sales Tax

\$40,000

Last year, the Texas Legislature made two changes to the taxation of mixed beverages in Texas. First, it reduced the mixed beverage gross receipts tax rate from 14% to 7%. The Legislature also imposed a new 8.25 percent mixed beverage sales tax on mixed beverage sold by restaurants licensed to sell liquor. The restaurant may collect the mixed beverage sales tax from its customers just like any other sales tax. However, the restaurant must still pay the 7 percent mixed beverage gross receipts tax itself. The proposed revenue is a conservative projection since the changes could cause an increase in taxes collected, the offset is that it could cause an overall drop in consumption which could cause a loss in sales.

| <u>FY</u> | 2010/11 | 2011/12 | 2012/13 | 2013/2014 |
|-----------|---------------|---------------|---------------|---------------|
| | <u>Actual</u> | <u>Actual</u> | <u>Actual</u> | <u>Actual</u> |
| Tax | | | | |
| Received | \$39,220 | \$37,082 | \$32,542 | \$40,772 |

Permits & License Fees

\$40,000

Building and development revenue is collected from a variety of fees and charges for permits encompassing all activity from single family and commercial development. The majority of revenue generated will be from residential building and remodels and some commercial re-development. In FY 12-13, a revised permit fee scheduled was approved by the City Council, which brought the City up to industry standards. A major component of the revised schedule includes recouping 100% of outside consulting fees for site plan reviews.

Rental Property \$7,150

In 2010, Sunset Valley entered into an agreement with Sustainable Food Center to lease the property known as The Triangle, to operate a Farmer's Market. SFC pays the City \$550 per month. Revenue is also generated from the tenant sign for the Homestead Shopping Center.

Sales and Use Tax – GENERAL FUND

\$4,544,380

This amount is the portion of the collected Sales Tax that is distributed to the General Fund. Below is detailed information regarding Sales and Use Tax Revenue as a whole.

General Sales and Use Tax are levied on the sale, lease, or rental of all taxable goods within the Sunset Valley City limits. The Texas Comptroller collects and remits a payment each month on the portion due to the City. Of the 8.125 cents for every dollar spent, the State keeps 6.25 cents, 1.5 cents is paid to the City for general operations and debt service, .25 cents is paid to the City for deposit into the street and maintenance fund, and .125 cents is deposited into the green tax fund for specific water quality land purchases.

As the primary source of revenue, the City's sales tax collections typically may not follow the general economic predictions on a national or state level. Sunset Valley's sales collections are more closely connected to our own internal growth and the external effects of economic growth of our neighbor cities.

The following table is the *actual* sales tax revenue received for the past seven years, with the exception of September 2014, which is an estimated amount. This table is the *total tax collected*. The .25% portion collected for the street and maintenance fund and the .125% portion collected for green tax are deducted from this amount.

REVENUE PROJECTIONS

For many years a complicated formula using square footage for each store and a 9 month history for the past three years for each store was used to calculate estimated revenues. That formula worked until 2007, when the averages became skewed because of the economy. In FY 2013/2014 the revenue projections were based on the Long Range Planning Committee's recommendation of using a 3% growth increase for revenue. For budget purposes in FY 14-15 a 4% growth increase was used.

Sales Tax Revenue Projections by Fund for FY 14-15

| treet Fund | x Collected Fund Percentage | | | | | | |
|--------------|-----------------------------|-------------|--|--|--|--|--|
| General Fund | 80.00% | \$4,544,380 | | | | | |
| Street Fund | 13.33% | \$757,378 | | | | | |
| Green Tax | 6.67% | \$378,717 | | | | | |
| | | \$5,680,475 | | | | | |

A. General Operations and Debt Service

\$4,544,380

General sales and use tax of 1.5% is paid to the City for general operations and debt service. In FY 2014-2015 Sunset Valley does not have any debt.

B. Street Tax

\$757,378

The revenue projections for the street tax are directly related to the collection of sales and use tax levied on the sale, lease, or rent of all taxable goods within Sunset Valley. After holding an election to consider increasing the City's sales tax rate an additional ¼ cent, the City began imposing the additional tax on January 1, 2001 and the tax was renewed at an election in 2009 and 2013. The legislative statute allowing the collection of this tax also includes restrictions on use of the proceeds and limitations on the number of years the tax can be collected before an election for reconsideration must be held.

C. Green Tax

\$378,717

The City collects a local sales tax at the rate of .0125% to fund the Edwards Aquifer Protection Venue Project along Brodie Lane or Country White Lane proposition for watershed protection and preservation.
